Jim and Sharon,

The SLI programs are putting together information about what we do for Ralph's replacement. They wanted some additional background about UMass and the Amherst Lab. Attached is a draft of what I wrote.

Subject: Amherst Lab Information

Chuck,

Attached is some information about the Amherst Lab for the new Ralph. I wrote a couple of possible first sentences which we can adjust to fit in with your text. I thought of two more capital budget items for Amherst. The costs are an educated guess.

Chemical fume hood @ \$75,000 to 300,000
Air conditioners @ \$10,000 to 20,000

The reason the range for the hood is vague is that UMass has added some hoods to another section of the building which could lower the cost. The last estimate I got was \$300,000.

Also Sonja's federal sample is in the lab, so she is going to Boston on Friday. Betsy is ready for her.
